# FAQ's

### How Edujournal is different from any other online skill development & learning platform?

Edujournal offers a comprehensive and structured learning path with a focus on practical application & industry oriented projects. With Live Sessions, one on one doubt clearing and internship opportunities, Edujournal provides a personalized learning experience to its learners. Additionally, its 100% Job Assistance program ensures that learners are not just job-ready but also get placement in Top Tier Companies.

### I don't have a coding background or IT experience so how this will help me?

Edujournal designed this program to cater to the needs of learners from diverse background. This program will help you learn the necessary technical skills from scratch. This includes step by step guidance, assignments & projects to help you build a solid foundation. Additionally it offers one on one doubt clearing session and softskills training to help you build confidence & enhance your employability. Internship opportunities will give you the real-world exposure necessary to enter the field with confidence, regardless of your background.

### Does this course cover everything?

Yes, this course covers every skills that are currently required in the field of Full Stack .Net Software Development, after completing the course you can easily crack the interview of Front-end Developer, Back-end Developer, Full Stack Developer, Database Developer etc.

### Who will be my Mentor?

Our Full Stack .Net Software Development Program is designed and delivered by the industry experts who have over 15-20+ years of experience in the field. Our mentors are seasoned professional who have worked in some of the top companies across the globe and have a deep understanding of the latest tools. Techniques and trends in the industry.

### How the Full Stack .Net Software Development Projects looks like?

*FSD* project involves creating complete web application like, Requirement analysis, Design and Wireframing, Front-End Development, Back-End Development, Integration and API Development, Testing and Debugging, Maintenance and updates. and many more, this are the different types of Full Stack .Net Software Development projects that will be undertaken.

### When I will be starting my internship?

Upon completing our FSD Program, you will get the opportunity for 3 months internship. This internship will give you the hands-on experience and will help you to understand how to utilize your knowledge in the real-world projects. You will have the option to choose between an online or offline internship, depending on your preference & availability. Real time projects collaborate with industry professional and learn about industry specific tools & technologies.
